公司简介 *Corporate Profile*

西子西奥电梯有限公司是一家采用欧美技术，集研发、设计、制造、安装改造维修为一体的现代化专业电梯企业，融合IT集成技术，完善提供各类型楼宇人性化智能管理、高效低碳节能的运输模式，为高速发展中的现代化社会贡献着匹配的输送能力。

总公司位于广州市增城区国家级经济技术开发区，总占地面积约24000平方米，一期建筑面积约10000多平方米，研发工程师40多人，与国内多家高等学府建立研发合作关系，在江西九江及四川已设分工厂，占地面积分别为15000多平方米，试验塔120米。

公司持有中华人民共和国国家质量监督检验检疫总局颁发的电梯制造及安装最高级别“A”级制造许可资质，公司借鉴、消化国际电梯设计、控制及制造先进技术，开发生产出世界领先品牌客梯、货梯、医用电梯、观光梯、自动扶梯、汽车梯等全系列电梯产品，是国内重要的电梯供应商及服务商之一。

已获得质量/环境/健康系统认证，连续2年获得广东省工商局颁发“守合同重信用企业”，连续5年本公司获得了中国质量信用评价中心授予的“AAA+级中国质量信用企业评价”、“消费者最信赖、质量放心品牌”等荣誉，是对本公司质量的充分肯定，在可预见的未来，公司将继续以品质为基本，不断创新科技，不断提升公司服务，为中国为世界提供性能更高、更舒适、更精美的运输工具。

Xizixiao Elevator Co. Ltd is a company with Europe and the United States technology, R & D, design, manufacturing, installation and maintenance as one of the modern professional elevator enterprises, integration of IT integration technology, improve transportation mode with high efficiency and low carbon energy saving buildings of all kinds of human intelligence management, the contribution of transport capacity, high-speed development the modernization of society. Zengcheng Guangzhou District, the company is located in the state-level economic and Technological Development Zone, with a total area of about 24000 square meters, a construction area of about 10000 square meters, more than 40 R & D engineers, and many domestic institutions of higher learning to establish R & D cooperation relations, Jiujiang Jiangxi and Sichuan have set up factories, covers an area of more than 15000 square meters, 120 meters test tower.

The company holds the elevator issued by the people's Republic of China State Administration of Quality Supervision Inspection and Quarantine of the manufacture and installation of the highest level "A" manufacturing license, the company reference, absorb international elevator design, control and advanced manufacturing technology, development and production of the world's leading brands of elevators, elevator, medical elevator, sightseeing elevator, escalator, elevator car all series of elevator products, is one of the important domestic elevator suppliers and service providers. Has received quality / environmental / health system certification, Guangdong province for 2 consecutive years, the company received the China Quality Credit Evaluation Center awarded the "AAA+ grade China quality credit enterprise evaluation", "consumer trust, quality assured brand" and so on, is the company's quality assurance, the company will continue to take quality as the basic, continuous innovation technology, and constantly improve our service, for the world to provide a more comfortable, more comfortable, more beautiful transport.

Enterprise Culture

企业文化

企业使命：
开发、生产、销售、供应更安全更舒适的高品质的产品和服务，成为领先的个性化电梯供应商。

企业精神：
安全 务实 圆融 创新

企业价值观：
不断创新改进、追求可持续发展。
互相尊重，认同文化差异可以互补。
高度重视责任心、良好团队竞争力、不断的自我发展和提高。
尊重每个员工的价值，人才是西奥不断向前发展的根本。
提倡积极主动的创新作业精神，致力成为国内外同行业的领先者。

服务
始终将客户的利益放在首位，真诚沟通，制定完善实际的解决方案，从而提升客户价值。

Technology Innovation

技术创新

作为中国著名品牌电梯生产厂家及销售公司之一，以其创新的产品和服务成为行业内的技术领跑者。将永磁同步无齿轮曳引技术应用于电梯领域，成为无机房和小机房电梯的行业先驱，引发了电梯驱动技术革命的新浪潮。

依托各大研发中心，传承数年来领先于世界的产品技术和管理经验，现拥有专业研发团队和实施先进、环境一流的研发中心，结合目标市场特点，不断引进、开发和研究，其技术与产品始终处于世界前列。

As one of the China famous brand elevator manufacturer and sales company, with its innovative products and services to become a technology leader in the industry. The permanent magnet synchronous application of non-gear traction technology in the elevator, small machine room elevator machine room and become the industry pioneer, triggered a new wave of elevator drive technology revolution.

Relying on the R & D center, passing several years ahead of the world products technology and management experience, now has a professional R & D team and the implementation of advanced environment, first-class R & D center, combined with the characteristics of the target market, continuous introduction, development and research, its technology and products has always been at the forefront of the world.

永磁同步无齿轮曳引机

相比传统的有齿轮曳引机，永磁同步无齿轮曳引机可以节能约40%。无需润滑油，外形紧凑，噪音低，重量轻，既有利于环境保护，又节省机房空间，降低建筑成本。

一体化控制系统

(1) 高度集成，引领全新理念驱动控制有机结合，性能更好，结构更紧凑；模块化设计，使控制柜的成本更低；全系统集成，随行电缆芯数更少。

(2) 完美驱动，倡导舒适感受，世界一流的驱动算法，适用电动机范围更广；专业的驱动制造技术，强大的环境适应能力；严格的测试保证，可靠性更高。

(3) 独特创新，自主专利技术，N条曲线自动生成；无称重启动自动补偿；同步机免角度自学习。

(4) 便捷调试，实现高效工作，功能码精练，真正的傻瓜调试；故障等级分类处理，查找更简单；一体化设计，降低控制柜接线数量。

(5) 质量可靠，解决后顾之忧，多重保护，让电梯更安全；故障信息全面，便于维修保养；全国联保，及时响应客户服务。

Permanent Magnetic Synchronous Drive

Compared with the traditional gear traction, permanent magnet synchronous gearless traction machine can save energy by about 40%. No need of lubrication oil, compact appearance, low noise, light weight, is conducive to environmental protection, but also save room space, reduce construction cost.

Integrated Control System

(1) a high degree of integration, leading the new concept of organic combination of driving control, better performance, more compact structure; modular design, the control cabinet is lower cost; integrated system, traveling cable core number less.

(2) perfect drive, advocate the comfortable feeling, driven algorithm of world-class used motor range; drive manufacturing technology professional, strong ability to adapt to the environment; rigorous testing to ensure high reliability, more.

(3) the unique innovation, independent patent technology, automatic generation of N curve; without weighing start automatic compensation; synchronous machine free angle self learning.

(4) convenient debugging, to achieve efficient work, the function code is concise; fault debugging real; fault classification processing, find more simple; integration design; reduce the number of control cabinet wiring.

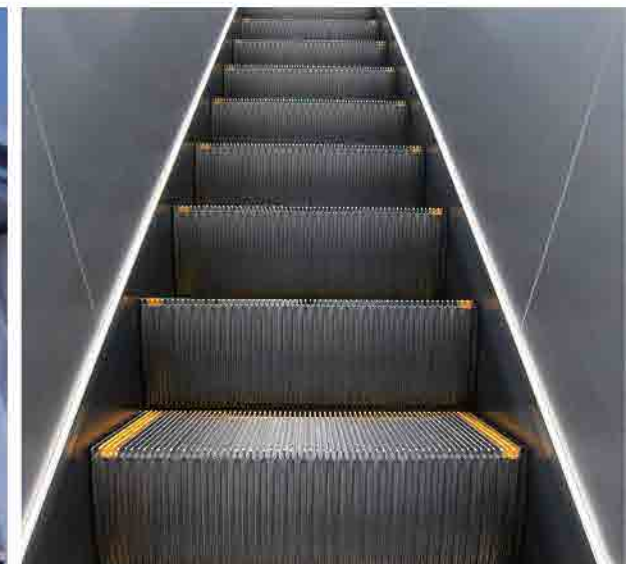

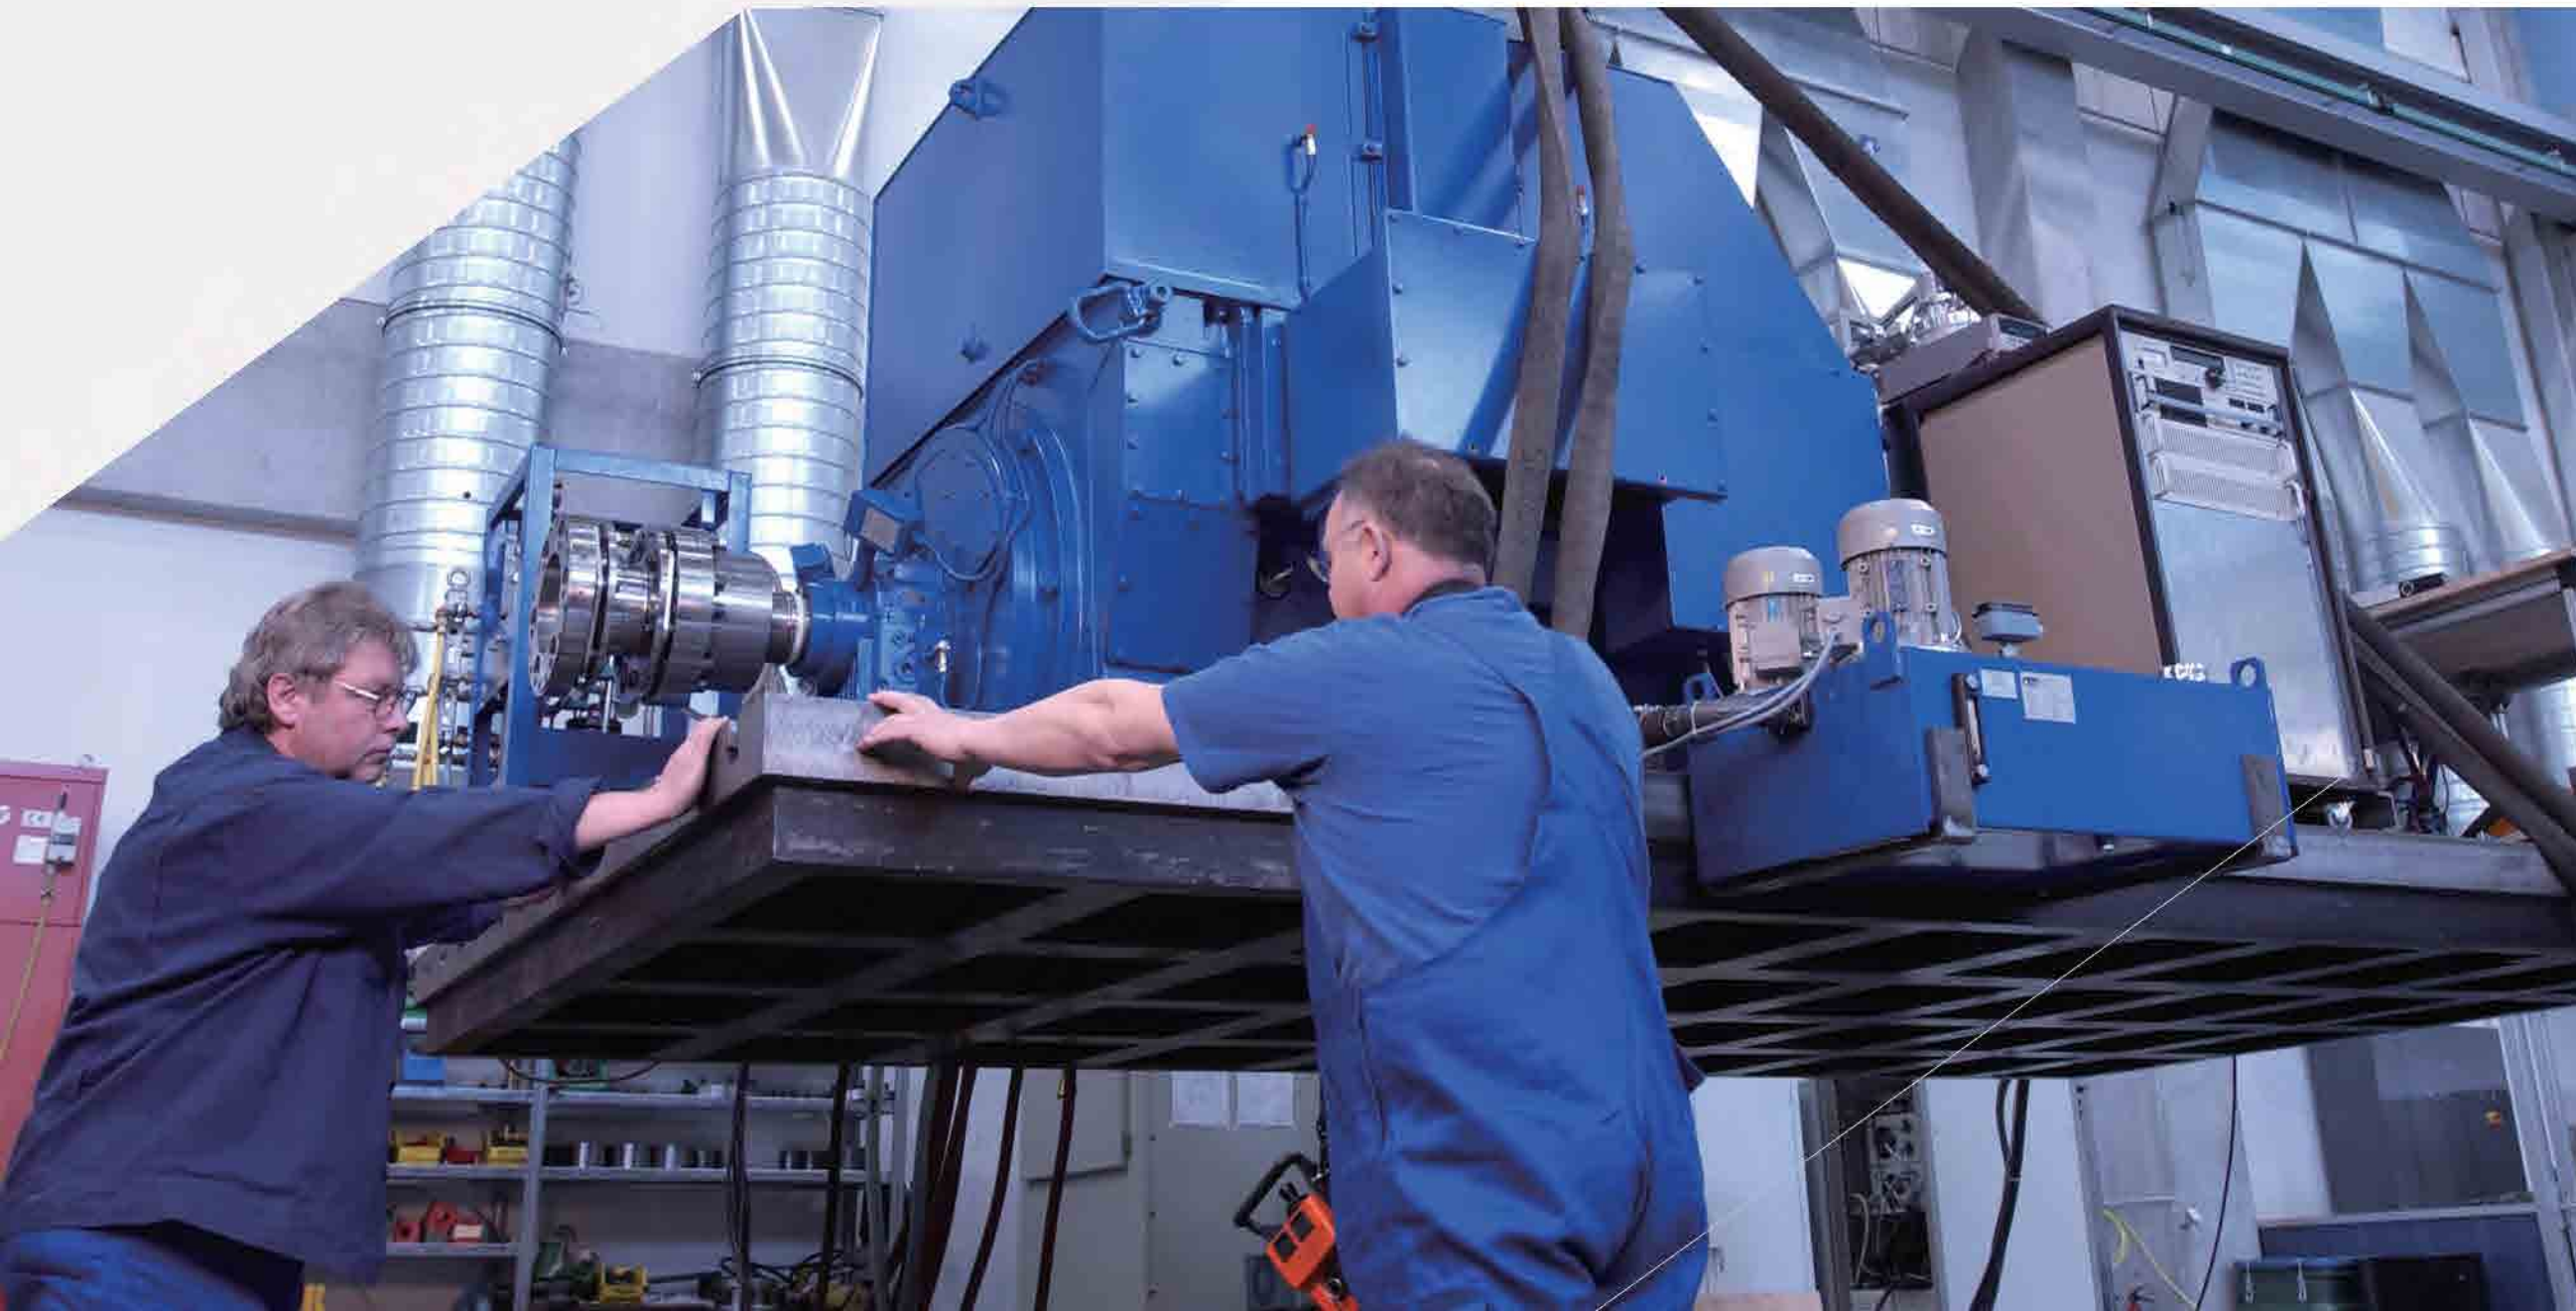

(5) the reliable quality, solve any message from the "rear", multiple protection, let the elevator safety; comprehensive information of fault, convenient repair and maintenance; Quanguolianbao; response and timely customer service.

World-class Specialized Manufacturer

强大的制造实力

我们执行完善的管理模式。为打造世界一流工厂，我们不断完善生产条件，拥有现代化厂房，引进行业领先的全自动柔性钣金生产线、全自动喷涂生产线、数控折弯机、数控多工位冲床、数控折弯机和数控剪板机等先进制造设备。产品质量从设计、制造到安装各环节均严格受控，保证产品的至臻品质。

We perform a perfect management mode. In order to build a world-class factory, we continue to improve production conditions, has a modern plant, the introduction of the industry's leading automatic sheet metal flexible production lines, automatic spraying production line, CNC bending machine, CNC punch press, CNC bending machine and CNC shearing machine and other advanced manufacturing equipment. The quality of the products from design, manufacture to installation are strictly controlled to ensure product quality, perfect.

Project Management

项目管理

客户的高度满意是我们不变的服务宗旨。为此，我们严格控制安装全过程，力求确保所有客户获得性能可靠、技术领先和无忧所值的电梯产品。

每一位安装技师都拥有项目管理和质量控制的专业技能，致力于为客户提供精益精准的安装管理和贯穿始终的技术服务。

我们制定并实施统一的安装管理规程和严格的安装操作流程，通过系统全程实时动态监控，配合客户楼宇建筑计划，建立联动机制，实现准时交付。

客户的高度满意是我们不变的服务宗旨。

High degree of customer satisfaction is our constant tenet. Therefore, we strictly control the whole installation process, to ensure that all customers receive reliable performance, advanced technology and free value of elevator product.

Each installation technicians have project management and quality control of professional skills, is committed to providing installation management lean precise and penetrating to every customer service from beginning to end.

We develop and install the management practice for a unified and strict installation process, the real-time dynamic monitoring system we connect the customer to building construction plan, establish the linkage mechanism to achieve on-time delivery.

Customers' Satisfaction Is Our Fixed Service Principle

Elaborate service

精细化服务

现代生活，电梯每天为人们提供舒适快捷的运载服务。为确保电梯安全运行，精益求精于每台设备从设计到保养的每个环节，力求为客户提供尽善尽美的产品与服务。从客户的土建，到产品的终生使用年限，西子西奥全程提供最可靠、最贴心的精细化服务。

In modern life, the elevator daily offers comfortable and fast delivery service. To ensure safe operation of the elevator, keep improving in each device to each link of maintenance from the design, in order to provide products and services for customers to reach the acme of perfection. From the customer's construction, the useful life of the product, The whole provide fine service to the most reliable, the most intimate.

Customers' Satisfaction

精细养护 终生无忧

我们为电梯、扶梯、设备度身定制了标准化的保养作业单元，在我们的精心维护保养下产品运行的全寿命可延长到30年以上，增值服务，保护投资。

For the elevator, escalator, our equipment tailor-made maintenance standard operation unit, the value-added service in our careful maintenance of all life maintenance product operation can be extended to 30 years, investment, protection.

Customers' Satisfaction

客服平台 时刻守候

现代化客服中心通过全国联网的身份识别码系统为您提供精准的服务。365天24小时ONECALL无障碍热线快速响应您的垂询。同时，我们主动了解您可能关注的所有环节，及时提供个性化服务。

Modern service center to provide accurate service for you by the identification of national network coding system. 365 days 24 hours ONECALL barrier free hotline to quickly respond to your inquiries. At the same time, we take the initiative to understand all the links you may concern, provide personalized service in a timely manner.

Customers' Satisfaction

第一时间 使命必达

卓越源于专业，遍布全国的维保技师都经过严格培训，拥有专业技能，确保第一时间为您提供全面、最优质的服务。

Excellence comes from professional maintenance technicians, all over the country have to undergo a rigorous training, with professional skills, to ensure that the first time to provide comprehensive, high quality service for you.

Customers' Satisfaction

备件供应 随时待命

覆盖全国的三级备件存储、辐射广泛的物流供应网络可就近为产品终生提供充裕的备件，让您永无后顾之忧。

Covering three spare parts storage, the logistics supply network wide radiation can be the nearest to the product life-long provide plenty of spare parts, so you never worry about.

Energy Saving And Environmental Friendly 节能环保

秉承“节能、环保”的产品开发理念，创造性的将能量反馈技术应用
于永磁同步无齿轮驱动系统。

- 高效节能：** 与传统电梯产品相比，节能效果更加显著，
综合节能率可达60%。
- 绿色环保：** 消除制动电阻产生的大量热能，延长电梯
设备的使用寿命。
- 安全可靠：** 及时消除变频器直流回路中的升高电压，
改善电梯的制动性能，提高舒适感。
- 安装便捷：** 优化安装流程，操作简单方便。
- 清洁静音：** 在不影响其他用电设备的情况下有效抑制制
谐波干扰。

Adhering to the "energy saving, environmental protection" concept of product
development, creative energy feedback technology is applied to permanent magnet
synchronous gearless drive system.

High efficiency and energy saving:
Compared with the traditional elevator products, energy-saving effect is more
significant, comprehensive energy saving rate can reach 60%.

Green environmental protection:
The elimination of large amounts of heat energy brake resistance, prolong the
service life of the elevator equipment.

Safe and reliable:
Eliminate voltage frequency converter in DC circuit, improve the braking
performance of elevator, improve comfort.

Convenient installation:
Optimizing the installation process, the operation is simple and convenient.

Clean quiet:
In does not affect other electrical equipment case effectively restrain the harmonic
interference.

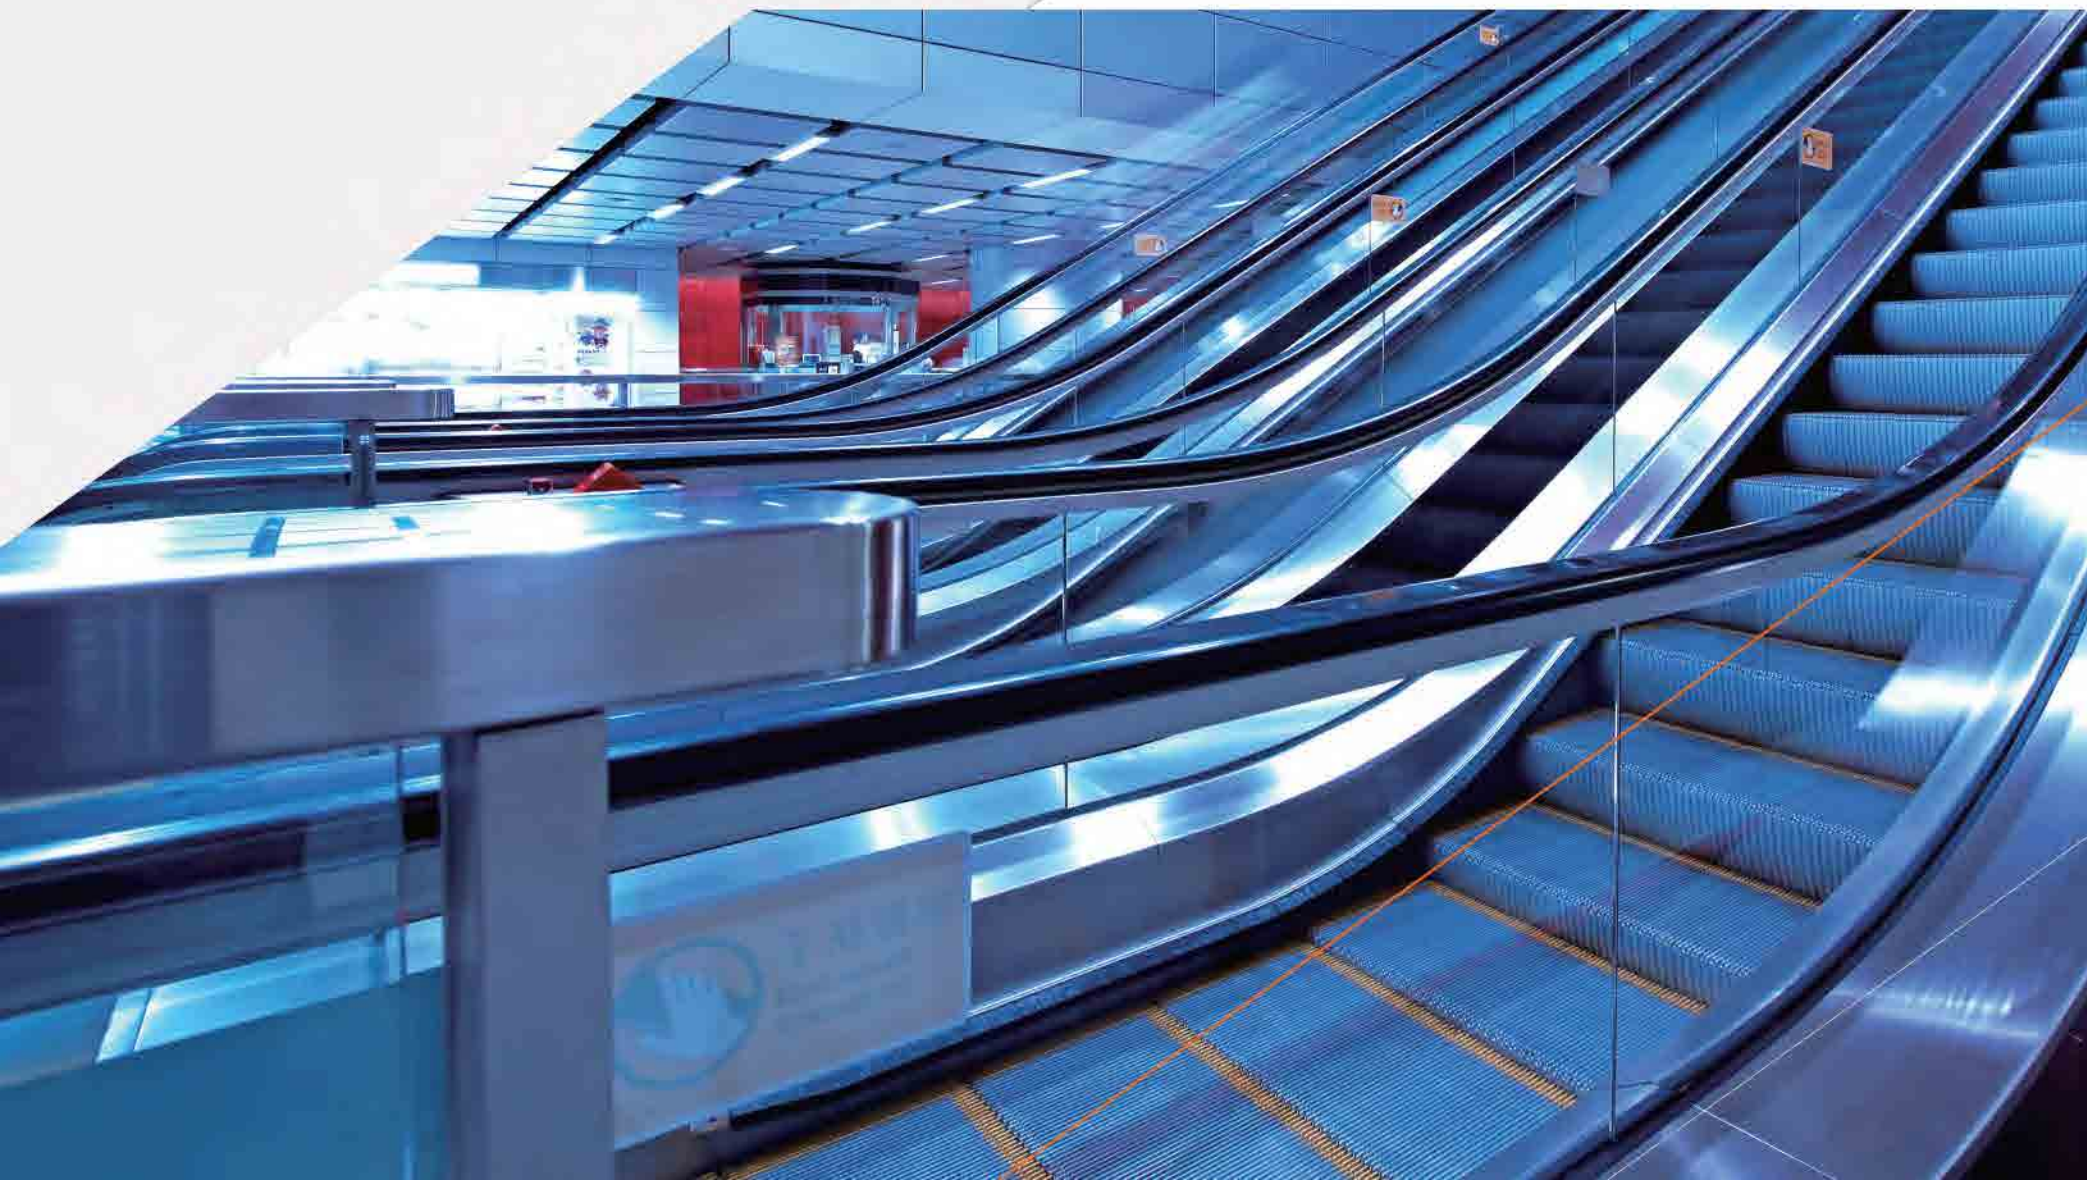

Comprehensive Products

全面完善的产品线

西子西奥电梯公司同步国际电梯行业设计、控制及制造先进技术，开发生产出世界领先的“GOTS”，“XOTS”品牌客梯、货梯、观光梯、自动扶梯/自动人行道、汽车梯、医用电梯、别墅梯等全系列电梯产品，是国内重要的电梯供应商及服务商之一。

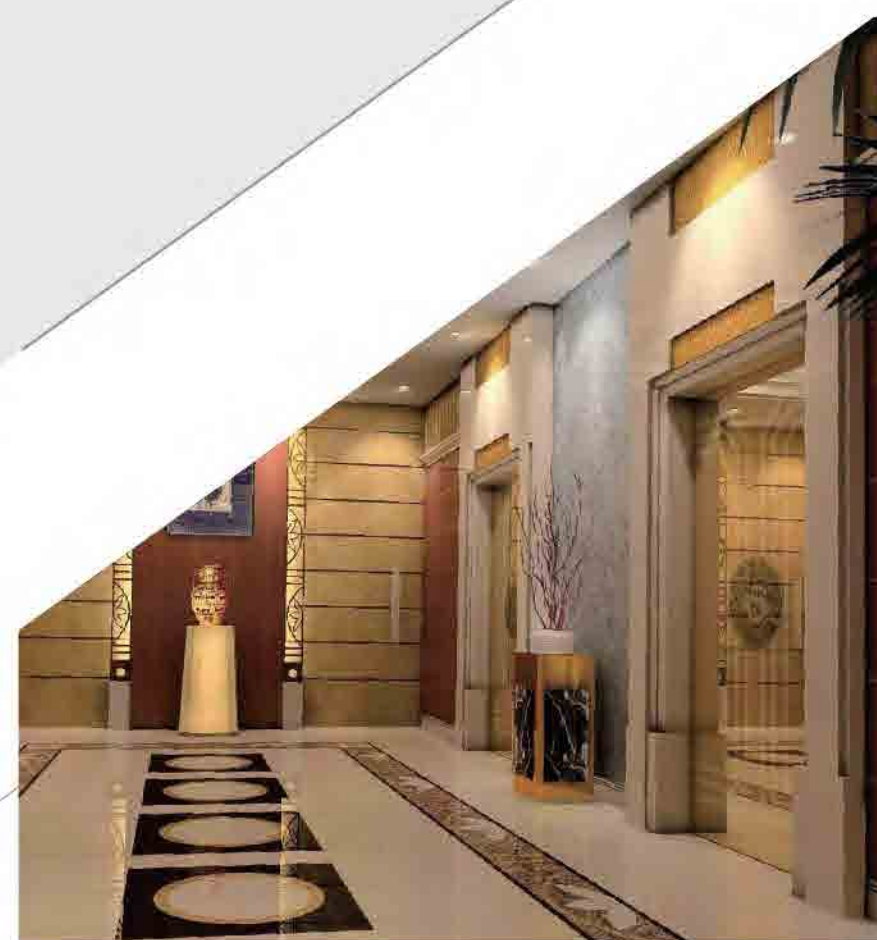

Xizixiao international elevator industry design, control and advanced manufacturing technology, development and production of the world's leading "GOTS", "XOTS" brand elevators, elevator, sightseeing elevator, escalators / automatic sidewalk, car elevator, medical elevator, villa elevator such as a full range of elevator products, is one of the important domestic elevator suppliers and services business.

Passenger Elevator 乘客电梯

全电脑智能型控制系统，32位网络化微机控制、专家智能群控、VVVF数字化变频驱动、轿厢位移绝对记忆，配置高端，性能卓越，功能强大；能满足不同场合和客户不同偏好需要的轿厢装潢与人机界面，精致豪华，令乘坐舒适惬意；采用来自领先业界的永磁同步技术的小/无机房电梯，节能环保，节省建筑空间和造价。广泛适用于高层住宅楼、办公楼、宾馆、机关、学校和各种公共建筑场所。

Full computer intelligent control system, the 32-bit microcomputer control, expert intelligent network group control, VVVF digital variable frequency drive, capsules displacement absolute memory, high-end configuration, excellent performance and powerful; To meet the need of different occasions and different customer preferences decoration and human-machine interface, capsules and exquisite luxury, creating a comfortable; From the leading industry of small/machineromless elevator of permanent magnet synchronous technology, energy conservation, environmental protection, save space and cost. Widely used in high-rise residential buildings, office buildings, hotels, government agencies, schools and various public places.

Observation Elevator 观光客梯

观光电梯是适应人们的进一步需求而生产的。乘坐人员可观看电梯外面的景色，享受现代设备带来的视觉感受。观光面宽敞明亮，造型别致，为你的建筑带来别样景致，拓展了视觉空间，使狭隘的空间得到了延伸。观光电梯造型美观，运行平稳，平层准确。拖动采用曳引方式。节能、高效、安全。在宾馆、写字楼等大型建筑场所得到的应用，为现代都市增添了靓丽的风景。

Observation elevator is to meet the needs of people's further and production. The elevator personnel can watch the scenery outside, enjoy the modern equipment of visual perception. Sightseeing face capacious and bright, modelling is chic, bring your building another scene, expand the visual space, gives a narrow space. Sightseeing elevator modelling beautiful, smooth operation, smooth layer is accurate. Drag the traction mode. Energy saving, high efficiency, safety. Widely used in hotels, office buildings and other large construction sites, add a beautiful landscape for the modern urban.

Villa Elevator

別墅客梯

安装在私人住宅中，仅供单一家庭成员使用的电梯。它也可以安装在非单一家庭使用的建筑物内，作为单一家庭进入其住所的工具，但是建筑物内的公众或其他居住者无法进入和使用。私人房屋的结构决定了在选择家用电梯或别墅电梯应采用无机房家用电梯结构，从而最大限度的节约了建筑费用和建筑空间，同时照顾了房的外观和美观度。

Installed in a private residence, only for the use of a single member of the family of the elevator. It can also be installed in a single family to use within the building, as the tool of a single family in their home, but the buildings within the public or other living person can not enter and use. private housing structure determines the choices in the elevator or villa elevator, machineroomless home elevator structure should be adopted so as to maximize saving construction cost and architectural space, at the same time to take care of the appearance of the room and beautiful.

Bed/Stretcher Elevator

病床/担架电梯

病床电梯是按人体舒适要求实时速度调节，运行平稳舒适，实现几近零对零的平层精确度，病床进出如履平地；柔和温馨的装饰，让乘客倍感无微不至的人文关怀；传统有齿轮电梯，经典可靠；采用来自领先业界的永磁同步技术的小/无机房解决方案，节能环保、节省建筑空间和造价。西子西奥病床电梯是医院、疗养院的理想选择。

担架电梯是乘客电梯的一种，担架电梯除了可供日常普通乘客上下楼使用外，在楼内出现重症病人的紧急情况下，住宅电梯需要设计成可以容纳担架和满足病人担架救护运输的要求。

According to the request of human body comfortable bed elevator is real-time speed regulation, smooth operation and comfortable, implementation of nearly zero zero flat layer precision, sickbed turnover gets; The adornment of downy and sweet, to make the passengers feel more meticulous care; the traditional gear elevator, classic and reliable; Adapted from the leading industry of the permanent magnet synchronous technology of small/machineroomless solutions, energy conservation, environmental protection, save space and cost. Guangzhou theo bed elevator is the ideal choice of the hospitals, nursing homes.

Stretcher elevator is one of the passenger elevator, elevator stretcher, except for daily average passenger stairs in the building in critically ill patients in emergency cases, residential elevators need to be designed to accommodate a stretcher and meet the requirements of the patient stretcher ambulance transport.

Freight Elevator

载货电梯

采用全电脑电梯专用控制系统、经典可靠的驱动方式、性能卓越的门传动结构、高强度的轿厢设计，使之在各种工况下均举重若轻、胜任有余。规格齐全，性能优越，可靠耐用，性价比高；可满足各类载货用途，并适应不同建筑结构，广泛用于工厂、生产线、仓库、商场、购物中心、展览馆等货运物流场所。

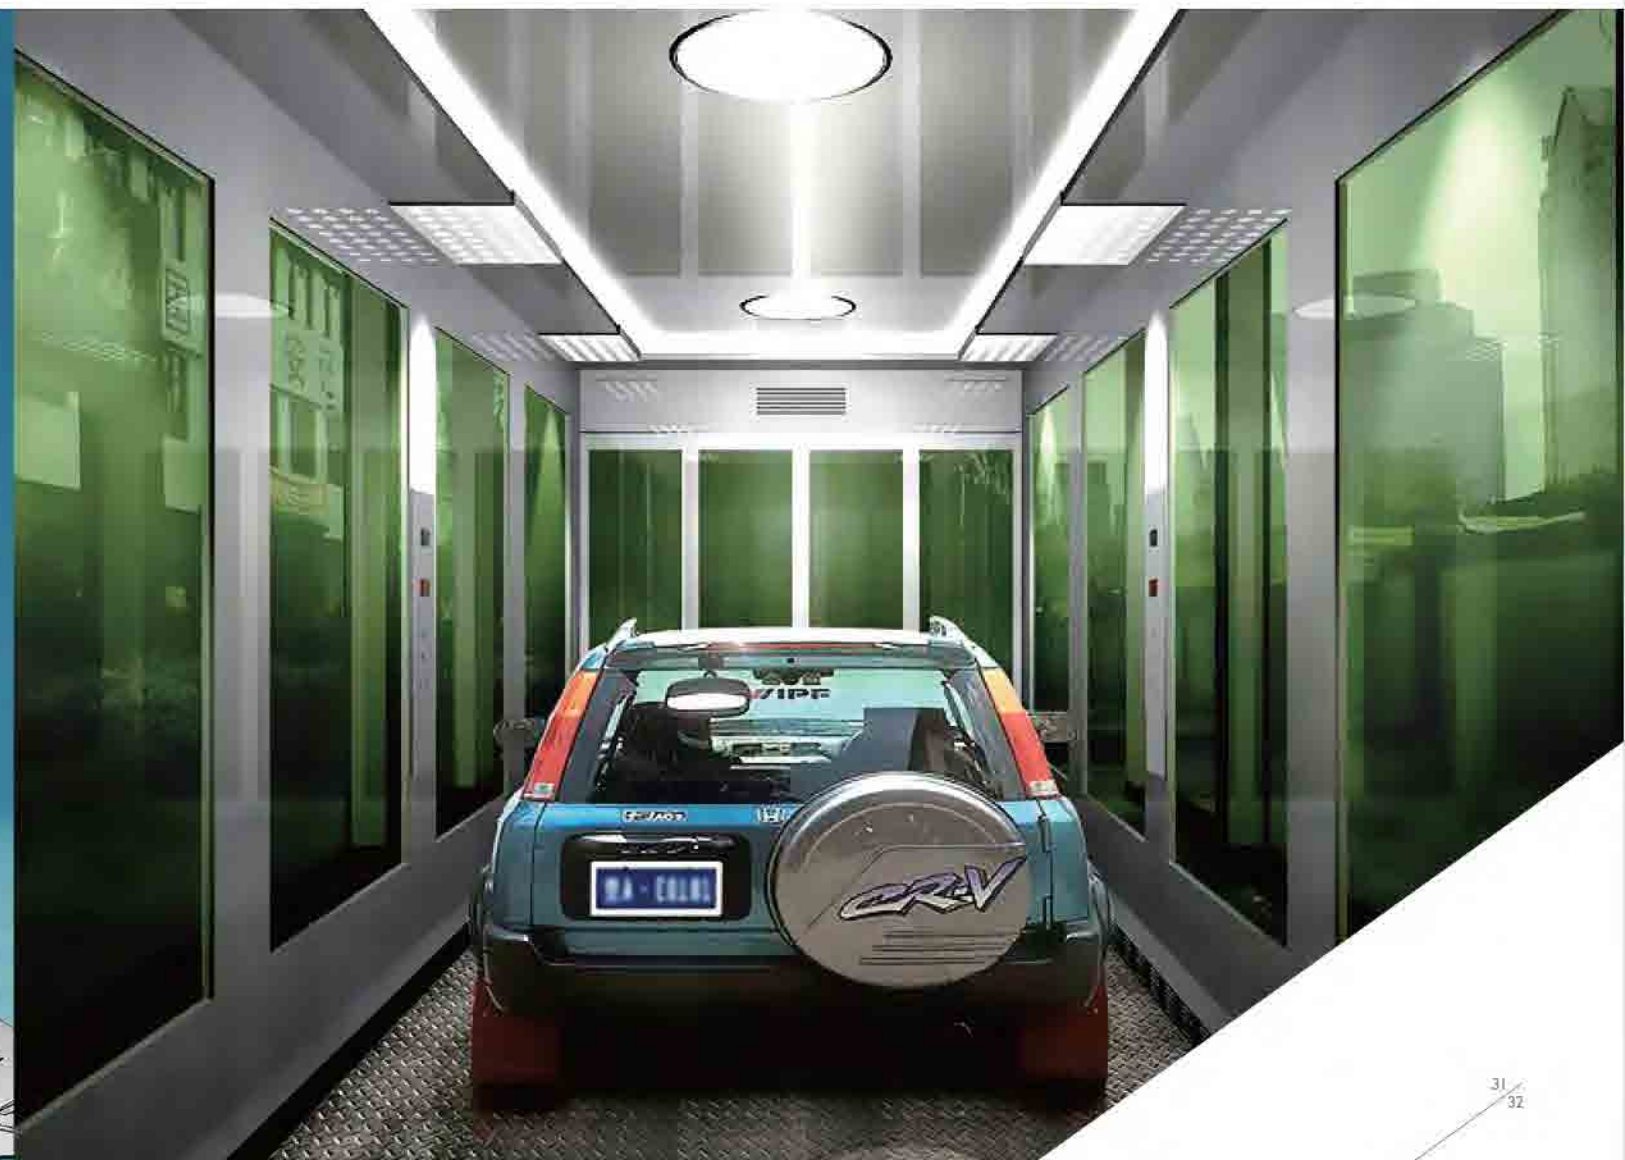

Elevator control system by computer fully reliable, classic drive way, high performance of gate drive structure, high strength capsules is designed, so the ease, for in various working conditions. Complete specifications, superior performance, reliable, durable, cost-effective. Can meet all kinds of cargo, and adapt to different structure, widely used in factories, production lines, warehouses, shopping malls, shopping centers, exhibition halls and other places of freight logistics.

Car Elevator

汽车专用电梯

西子西奥汽车电梯采用世界先进技术、根据汽车在空间、性能上的特殊需要专门设计，具有更高的灵活性、可靠性，为您昂贵的汽车提供万无一失的服务。汽车电梯采用变频控制技术，极大的提高了电梯运行的平稳度，降低了噪音，同时减少了能耗；并在电梯门机上应用了世界领先的光电装置，使得汽车的进出更为安全。汽车电梯的层站报站灯经过精心设计，使其服务更人性化。先进的数据网络系统大幅加快了电梯控制数据的传输速度及精度，进一步提高了其工作效率。

Gots car elevator adopts world advanced technology, according to the car on the space, performance, the special needs of special design, has higher flexibility, reliability, expensive cars provide safe service for you. Car elevator adopts frequency conversion control technology, greatly improved the elevator running smooth degree, reduced noise, reduced the energy consumption at the same time; On the elevator door machine and application of the photoelectric device, the world's leading makes cars in and out of more security. Car stops the elevator stop lamp passes elaborate design, make its more humanized service. Advanced data network greatly sped up the elevator control system data transmission speed and precision, to further improve the work efficiency.

Escalator & Moving Walk

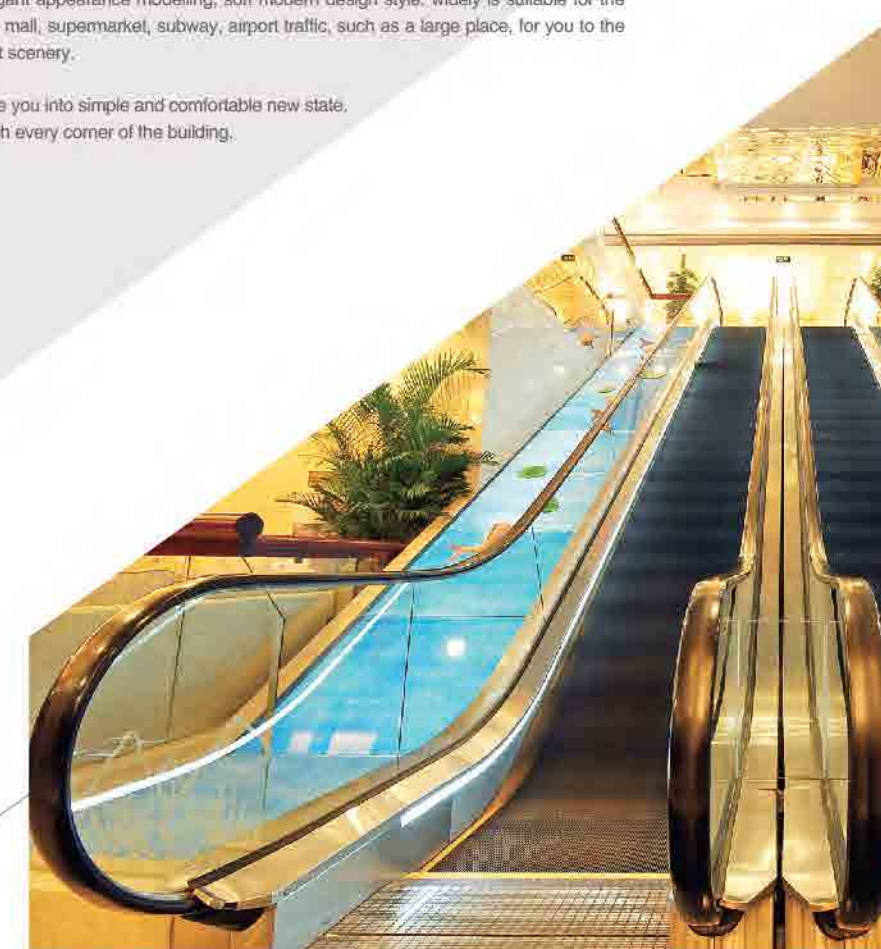

自动扶梯/人行道

自动扶梯，是依据现行国家标准，充分应用新型材料及国内外先进技术设计、制造。运行平衡，噪音低，经久耐用。具有精巧的结构、精良的梯路、精致的带路、精美的外观造型，柔和现代气息的设计风格。广泛适用于商城、超市、地铁、机场等客流量大的场所，为您的建筑平添一道亮丽的流动风景。

自动人行道购物带你进入简约舒服的新境界。人们可以顺畅、安全到达大楼的每个角落。

Escalator, is based on the current national standard, fully application of new materials and advanced technology design and manufacturing. Balanced running, low noise, durable. With delicate structure, excellent ladder road, delicate to lead the way, the elegant appearance modelling, soft modern design style, widely is suitable for the large volume of passenger traffic mall, supermarket, subway, airport traffic, such as a large place, for you to the construction of the flow of a bright scenery.

Automatic sidewalk shopping take you into simple and comfortable new state. People can smoothly, safely reach every corner of the building.
